URGENT Field Safety Notice: RA1690954

FSCA Identifier: Product Field Action RA1690954
Type of Action: RECALL-REMOVAL
Product description: Guider Softip™ XF Guide Catheters
Item No.: See attached list

Dear customer:

Stryker Neurovascular, as the distributor of the Guider Guide Catheter product, is initiating this Medical Device Recall in coordination with Boston Scientific, the manufacturer of this device. Our records indicate that you have been supplied with at least one of the subject devices. We therefore request that you read this notice carefully and complete the actions requested by the manufacturer. The intent of this letter is to instruct you to return all impacted product to Stryker.

Issue:

Stryker Neurovascular has become aware that certain lots of Guider 7F and 8F product may be at risk of degrading within their shelf-life period. The root cause of the issue is exposure of components to UV light while in storage between 2014 and October 2017.

Potential Risk

Patients previously treated with the impacted devices are not at risk.

For potential patients- The reported issue can cause the embolization of degraded polymer fragments into the neurovasculature which can cause stroke. There have been no reports of catheter degradation or injury.

Completed Corrective Action

This is a lot-specific storage issue that has been corrected.

Regulatory Actions

Affected worldwide regulatory authorities are being notified of this removal as required.

Immediate Actions

Our records indicate that you have received at least one of the subject devices and you are therefore affected by this action.

We request that you read this notice carefully and complete the following actions:
