Page 2 to the letter of October 24, 2017

The joint application of both versions can result in intraoperative removal of more bone material than necessary. As a result, more bone cement has to be used than planned, which can lead to a early loosening of the prosthesis. To date, we have not received any market feedback on such incident.

Our investigations have shown that the articles which are affected, can be limited to the above mentioned batches.

The affected implants can clearly be identified by comparing the batch numbers.

Please ensure that the affected implant components are no more used.

Should you have an affected product, please return it with the attached "**Product Recall Form**" to

**Aesculap AG**  
LRP  
**Siegfried Schwarz**  
Am Aesculap-Platz  
D-78532 Tuttlingen  
[vigilance\\_aag.de@aesculap.de](mailto:vigilance_aag.de@aesculap.de)

For any product-related request, kindly do not hesitate to contact our product manager:

**Denis Hoeffgen**  
☎ + 49 7461 95 1785  
☎ + 49 151 12635913  
[denis.hoeffgen@aesculap.de](mailto:denis.hoeffgen@aesculap.de)

In the case you do not have any of the affected products, please send us the attached "**Feedback Form**" and tick as appropriate.

Please ensure in your organization that all users of the affected devices are informed about this safety information. If you have distributed the products to a third party, please forward a copy of this information or inform the above mentioned contact person. The Competent Authority BfArM - Bundesinstitut für Arzneimittel und Medizinprodukte, has received a copy of this safety information.

We apologize for any inconvenience this may cause and thank you very much for your support.

With best regards,

Aesculap AG
